The end

325 chair

design

ATELIER PRO

The 325-chair was designed for us by Dorte Kristensen of Atelier Pro.

This chair is well suited for the care sector.

325-E/46

Olli-F/46 + Olli-S/46

Khodi Feiz developed the

Olli chair.

Khodi Feiz designed the *Olli* chair, armchair and a series of tables. Soft lines and rounded shapes in wood and fabric create a welcoming ambiance.

design studio

burobas.

The Bilbao chair is designed
for us by Burobas and combines sleek
lines with classical woodworking,
a Hutten trademark.

Bilbao E-F/46

Bilbao E-S/46

Bilbao E/62

Bilbao E/80

The wooden frame is available in oak and beech. The seat can be made in beech or oak wood and may be finished as per your wish in any colour. It is also available in a series of laminate colours.

Bilbao E-Bench/46

We added a wooden banquette to our Bilbao range.

Easily making it one of the most versatile products on the market. All designed by BuroBas.

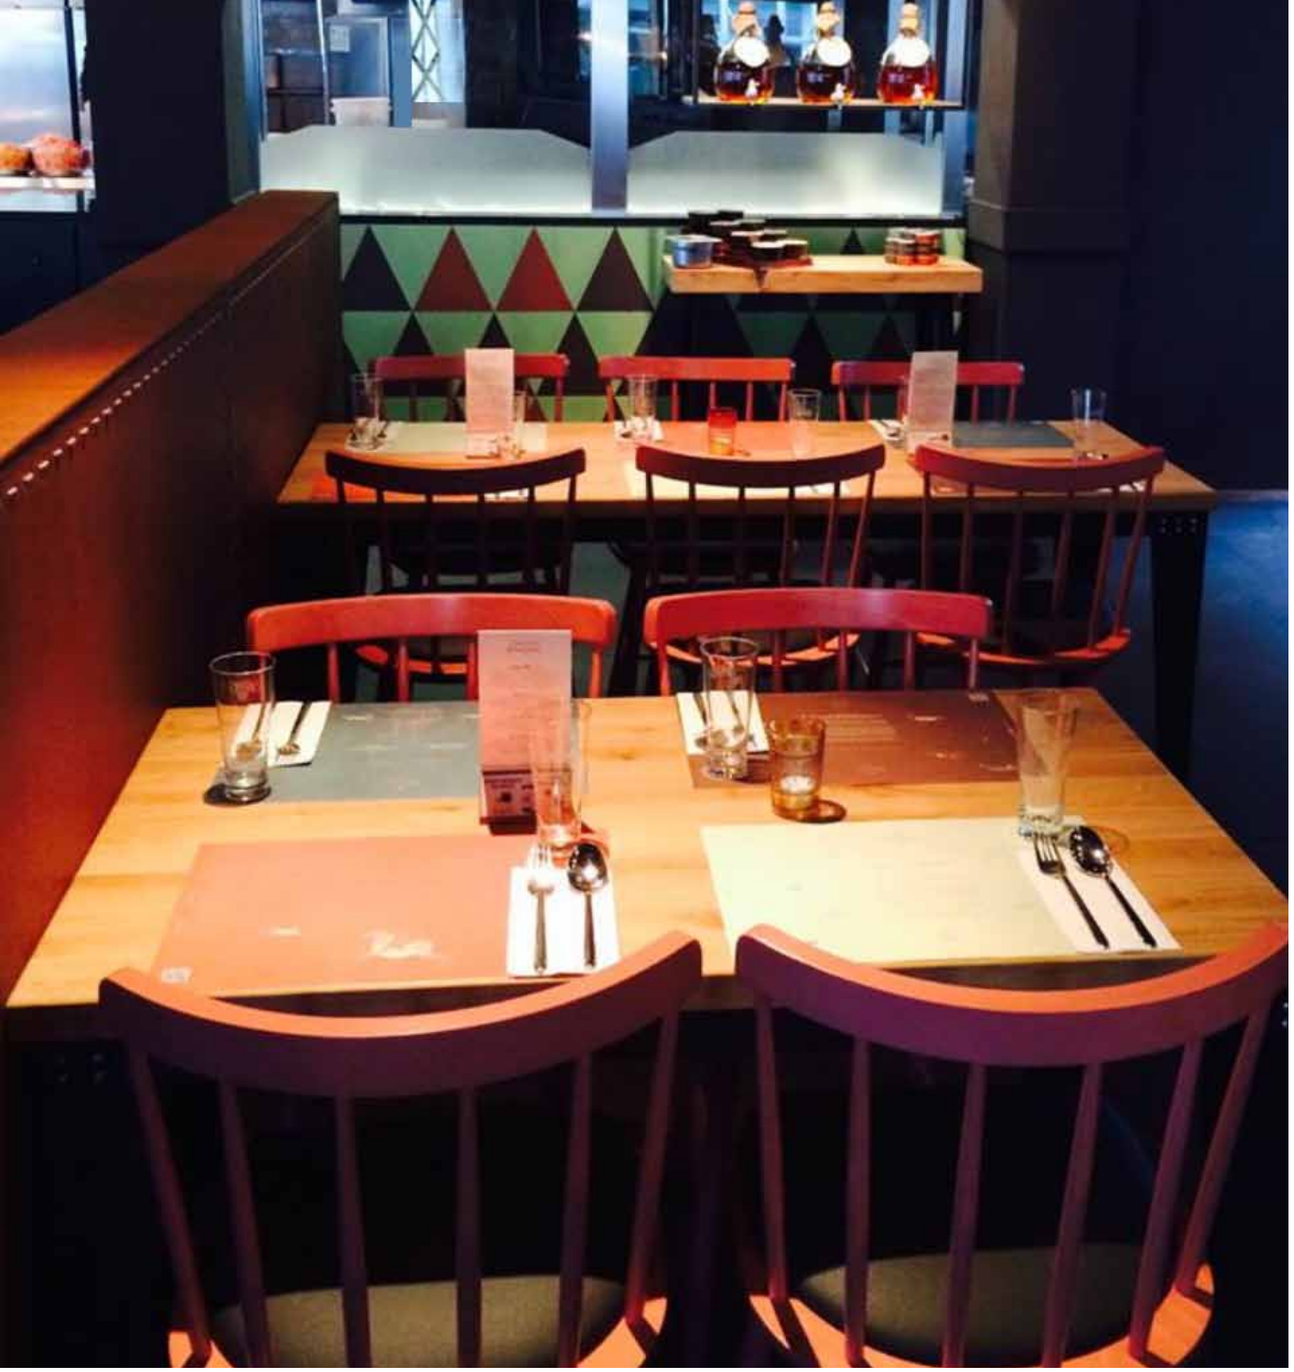
Chloë

This new series of models is inspired by shapes of the past, but with a modern twist. We have been inspired by the famous "Oirschotse" chair that was introduced in 1860.



Details such as the inverse shaped legs and the clean look of the backrest leave no doubt as to the fact that these models are designed for this day and age.

BEECH

422-E/46
seat height 46 cm.

422-E

The extra metal connection guarantees a long life for frequently used chairs, and also makes it stackable.

We have designed a linking mechanism in which the bracket “disappears” under the seat when the chairs are set up in rows.

422-E/62

seat height 62 cm.

422-E/80

seat height 80 cm.

OAK

422

This series of chairs is also available in beech wood and in 3 different heights.
The chair can also be upholstered.

422/46

2705

A table in oak wood, designed to match our 2705-series of stools in 3 different heights.

Available with our Typ-100, Typ-200, Typ-500 and Typ-600 table tops.

Available heights for the table:

21 cm. LOUNGE, 42 cm. LOW, 71 cm. BASIC

Available seat heights for the stool: 46, 62 and 80 cm.

OAK

Option:
different colour piping

Cube

The stool Cube is made of solid oak wood and can, but need not, be upholstered.

OAK

Milo

A modern classic made of first grade wood, the added comfort of an armrest and a world of options in the execution.

BEECH

BEECH

Myra-E

An upholstered armchair with a solid oak frame, designed for great comfort.

The VG table is available in large sizes. The legs are made of tulip wood. The table base may be combined with a variety of table tops from our collection.

TULIP WOOD

OAK

Myra-E/46

OAK

623-E

Oak, a characteristic wood, is the basic material for all these models.

The specific and strong grain offers the possibility for various distinguishing finishings.
Like for instance the eggshell top coat (a hand finish) as shown here.

623/01-E/80

623/01-E/62

185

A mulitfunctional chair,
available in various seat heights.

Cent-40/71 (Inox)+Typ-500

torino/46

A flexible bench system with a width as per your wishes.
The standard back heights are: 105, 155, 175 and 215 cm.

BEECH

domino-100/46

Bench, table and wall system.

Function: freestanding element to add structure to an open space.

Additional wall elements may be added to the system on the left, right and back side (to form an “H” structure).
Hence the name Domino.

The system is freestanding and is not fixed to the floor and makes cleaning under the benches easy.

Domino/46 complete

The system has adjusting screws and the bottom is protected against humidity.

Testing

for professional use

We test our constructions for intensive use. For your guests and for your future.

Colours

colours

With our professional paint specialists we ensure colour and quality. We colour your world in a responsible fashion with regard for the environment.

Spraying

spray

We use only water-based stains, recycle solvents, spray electrostatically and re-use cleaning materials.

Handicraft

handicraft

We test the materials that we use, such as stains, whenever possible and we focus on actual practice. Are they as maintenance-friendly and user-friendly as promised?

Upholstery

upholstery

For our fabric collection we also work with fabrics from recycled materials.

FSC Registered

FSC Registered company

We primarily work with FSC and PEFC certified materials, both in solid wood and chipboard material/construction for banks.

Waste in production

waste in production

We focus on minimizing waste in our production with the choice of materials, our planning method and state of the art technology and processing.

Packaging

packaging

The packaging material we use, is recyclable where possible.
